

PRESS RELEASE

HOUSE OF DIAGNOSTICS INAUGURATES ITS STATE-OF-THE-ART DIAGNOSTIC CENTRE IN GHAZIABAD

Highlights

- ❖ The company's 9th integrated Diagnostic Centre in Delhi NCR
- ❖ Located in Patel Nagar, Hapur Road
- ❖ Pathology & Radiology services like MRI, CT Scan, Ultrasound, X-Ray & more

Delhi, May 1, 2022: Understanding the need of the hour in bringing high-end diagnostics and pathology services to every Indian citizen, House of Diagnostics (HOD), has opened its new Integrated [Diagnostic Centre in Ghaziabad](#). HOD's new Ghaziabad facility at Hapur Road, is equipped with modalities like state-of-the-art MRI Scan, Low Dose CT Scan, 3D/4D Ultrasound, Digital X-Ray & Mammography and a wide range of pathology tests and health packages which are available under one roof.

On it's inauguration, **Dr Shubham Sogani, CEO of House of Diagnostics**, said,

"We are committed to provide access to high-quality diagnostics and pathology services to every Indian citizens. Our newly launched facilities at Ghaziabad recent brings us one step closer to our mission. Our centre is staffed with highly skilled and qualified pathologists, technicians, and doctors who give extreme importance to quality and timely reporting."

The opening of this centre will benefit the people of Ghaziabad as well as the residents of Delhi NCR, as the centre is conveniently located providing easy access to patients. The centre is staffed with highly skilled and qualified pathologists, technicians and doctors who value timely and accurate reporting. A well trained front office staff ensures that every patient has a pleasant experience while availing the services.

The high-end MRI Scanner provides excellent image quality along with a Quite Suite feature that provides more than 70% sound reduction for enhanced patient comfort. In addition, short breath-hold time allows patients with shortness of breath to get their scans done easily. The centre also houses a low dose CT scanner from Siemens that generates best-in-class images with a higher spatial resolution and accuracy.

In Uttar Pradesh, [HOD](#) operates more than 20 Sample Collection Centres and the opening of this

new diagnostic centre in Ghaziabad establishes its wide-scale presence in the state. The Ghaziabad centre will be a connecting hub for all the existing blood collection centres in the vicinity.

To ensure consistently high-quality operations, strict processes are in place to ensure that industry standards and customer requirements are met

About HOD

HOD is a young, dynamic, and rapidly growing integrated medical diagnostic service provider, making a positive impact in India's healthcare sector. With a vision to be a pan-India healthcare player, the company is currently managing its operations in Delhi-NCR, with plans to expand rapidly in other parts of the country. HOD has 10 Integrated Service Centres providing radiology, pathology and nuclear medicine services, and a footprint spanning over 100+ blood collection centres across the national capital region. HOD is committed to service people with reliable and quality diagnostic and pathology services using the latest state-of-the-art technology supported by strict internal and external quality assessments and controls.
