

PET-CT Scan Facility launched at HOD Karkardooma

Highlights

- ❖ High-end 3-Ring Discovery IQ scanners to offer the best in cancer CARE diagnostics
- ❖ High NEMA sensitivity to detect small lesions and motion correction feature for enhanced image quality

July 2, 2023, Delhi: House of Diagnostics (HOD), a leading name in the field of diagnostics and pathology, now offers state-of-the-art PET-CT Scan services at Karkardooma hub. PET-CT Scan services are now available across seven locations across Delhi-NCR. This significant expansion underscores HOD's commitment to providing advanced diagnostic solutions to the residents of Delhi-NCR.

Corporate Identification Number (CIN): U85191DL2007PTC171240

Registered Office: 15, Ground Floor, Hargobind Enclave, Karkardooma, Delhi – 110092

Corporate Communication: M - [8588861208](tel:8588861208) | Email - pr@hod.care

Speaking about the expansion, Dr Shubham Sogani, CEO of House of Diagnostics, said, “The continuous introduction of state-of-the-art PET-CT machines reflects our commitment to provide comprehensive cancer care diagnostic facilities. Given the crucial role played by advanced imaging technologies in cancer diagnosis and treatment, our PET-CT services align with our mission to provide unmatched healthcare solutions to our patients. Equipped with high NEMA sensitivity, these PET-CT scanners excel in detecting even the smallest lesions, ensuring early and accurate diagnosis.”

PET-CT scans offer detailed insights into the patient’s anatomy and metabolic activity at the cellular level. The scan is helpful in delivering accurate and timely diagnoses for a wide range of medical conditions, including cancer, cardiovascular diseases, and neurological disorders.

Dr Sogani emphasised, “These PET-CT scanners help ensure a smooth patient flow and minimise reporting delays, resulting in significant time optimisation for our patients. With exceptional sensitivity and image quality, the PET-CT scan machines meet our stringent quality standards for oncology.”

All the facilities at HOD adhere to strict internal and external quality assessments and are staffed by highly skilled pathologists, radiologists, and doctors who are committed to delivering timely and reliable diagnostic and pathology services of the highest quality.

HOD’s Karkardooma centres offer comprehensive services under one roof. Advanced MRI Scan, Ultra-low dose CT scan, Echocardiography, Mammography, Blood Tests and Health Packages suiting all age groups, are available at these centres.

About HOD

HOD is a young, dynamic, and rapidly growing integrated medical diagnostic service provider, making a positive impact in India’s healthcare sector. With a vision to be a pan-India healthcare player, the company is currently managing its operations in Delhi-NCR, with plans to expand rapidly in other parts of the country. HOD has 10 Integrated Service Centres providing radiology, pathology and nuclear medicine services, and a footprint spanning over 150 blood collection centres across the national capital region. HOD is committed to service people with reliable and quality diagnostic and pathology services using the latest state-of-the-art technology supported by strict internal and external quality assessments and controls.
