

HOD opens its new cutting-edge Integrated Centre in Indirapuram

Highlights

- ❖ 10th Integrated centre in Delhi-NCR
- ❖ Full spectrum of diagnostic services all under one roof

August 1, 2024, Delhi: House of Diagnostics (HOD), a leading name in the field of diagnostics and pathology, has further strengthened its footprint in Delhi-NCR with the launch of its latest Integrated Centre in Indirapuram. Located at Shakti Khand-4, CISF Road, Ghaziabad, this advanced facility offers a full spectrum of diagnostic services, including state-of-the-art MRI scans, low-dose CT scans, mammography, X-ray, ultrasound, blood tests, and specialised cardiology and neurology diagnostics.

During the inauguration of the new centre, **Dr. Shubham Sogani, CEO of House of Diagnostics**, said, “Our new Indirapuram Centre underscores our steadfast commitment to making high-quality diagnostic and pathology services accessible to more people. With this expansion, we are ensuring that residents of Ghaziabad receive exceptional, cost-effective healthcare solutions. Our team of expert pathologists, skilled technicians, and dedicated medical professionals is committed to delivering accurate and timely reports with the highest standards of care.”

[HOD's Indirapuram centre](#) in Ghaziabad brings together a full spectrum of diagnostic offerings in a single location. Patients can access advanced MRI scans, ultra-low dose CT scans, echocardiography, mammography, uroflowmetry, plus a variety of blood tests and customised health packages designed to meet the needs of every age group. The new facility is strategically located and easily accessible to residents of Ghaziabad and Delhi-NCR.

“With two fully operational integrated centres and more than 30 Blood Collection centers in Ghaziabad already under our belt, this new facility—offering diagnostic, pathology, and nuclear medicine capabilities—reinforces our commitment to Ghaziabad. The Indirapuram Centre is poised to function as a key hub connecting all our current blood collection sites,” said **Labham Sogani, CTO at House of Diagnostics**.

HOD maintains strict quality control protocols across all its centres to ensure compliance with industry standards. The Indirapuram facility follows stringent safety measures in diagnostic procedures and sample collection to guarantee precise, reliable, and consistent results for every patient.
